

## SMART Mini-Rex

**SMR 300SP / 600SP / 750SP / 1000SP / 1200SP / 1500SP**  
**Rack-mounted type power supply for metal surface processing**

SMR-600SP

SMR-1500SP

1. DC 6V Series: Output current ranging from 300/600/750/1000/1200/1500A
2. DC 12V Series: Output current ranging from 150/300/400/500/600/750A
3. DC 15V Series: Output current ranging from 300/400/500/600A
4. Constant setting for voltage and current output with high accuracy at 1% or less.
5. Equipped with digital voltage and current display as standard set.
6. Availability of control by external signals as standard.  
(On/Off, CV/CC change and output conditioning can be access by external signal)
7. Remote controller box with built in Ampere Hour Meter / Counter (Optional)
8. Chopper (pulse) function (Optional)
9. Rack-mounted for 19-inch rack  
(Front panel is 420mm, suitable for 19-inch rack in accordance with JIS standard)
10. Wide range of input voltage potential  
(From 180V to 240V or 342V to 506V)

### APPLICATION

- Printed-wiring board plating
- Electronic parts electroplating
- Semiconductor wafer surface treatment
- Noble metal decorative plating
